LinkedIn Profile

With **4+ years of experience**, I'm a Technical Product Manager with **an engineering foundation and entrepreneurial mindset**, building 0-1 products across **B2C, B2B, SaaS, and enterprise ecosystems**. I operate at the intersection of strategy, execution, and scale, turning complex problems into intuitive, AI-powered products that drive growth, retention, and measurable business impact. My strength lies in transforming ambiguity into structured product roadmaps, aligning cross-functional teams, and combining technical depth with business acumen to ship scalable, user-centric solutions.

Nationality – Indian
Status – Immediate Joiner

PM SKILLS

Product Roadmap & Strategy, Stakeholder Management, Backlog Management, Market Research, WMS Feature Prioritization, Customer Research & UAT, Inventory Management, KPI, Agile (Scrum), Storytelling, UX Optimization, Cross Functional Leadership
